DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-16, 28-41, 43-56 are drawn to methods of determining viscosity of blood and heart ejection rate of blood , classified in class 600, subclass 573.
 - II. Claims 17-27, drawn to a method of counting hematocrit, classified in class 422, subclass 73.
2. III. Claim 42, drawn to a method of determining the effects of a drug on the blood, classified in class 514, subclass.
3. Inventions of Group I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are unrelated because counting hematocrit is done in an optical manner, while viscosity determination is accomplished using a series of valves and the determination of the drug's effect on the blood involves determining surface tension.
The inventions are distinct, each from the other because of the following reasons:
 4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3736

5. A telephone call was made to Scott Slomowitz on May 29, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CAR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CAR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CAR 1.48(b) and by the fee required under 37 CAR 1.17(I).

7. Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Pamela L. Wingood whose number is (703) 308-2676. The FAX number for Group 3730 is (703)308-3590.
